Aims and Scope. JGR: Atmospheres publishes articles that advance and improve understanding of atmospheric properties and processes, including the interaction of the atmosphere with other components of the Earth system.

Editors: Minghua Zhang (Editor-in-Chief), (minghua.zhang@stonybrook.edu), James H. Crawford (http://orcid.org/0000-0002-1927-5405), Ruby Leung (http://orcid.org/0000-0002-6982-0934), William Randel (http://orcid.org/0000-0002-3221-9467), Zhanqing Li (http://orcid.org/0000-0002-7364-2624), William Randel (http://orcid.org/0000-0002-5999-7162), Lynn Russell (http://orcid.org/0000-0002-3823-1519), Chidong Zhang (http://orcid.org/0000-0001-9788-1561).

AGU Editorial Team. For assistance with submitted manuscripts, file specifications, or AGU publication policy please contact jgr-atmospheres@agu.org.

For submission instructions or to submit a manuscript visit: http://jgr-atmospheres-submit.agu.org.

The journal to which you are submitting your manuscript employs a plagiarism detection system. By submitting your manuscript to this journal you accept that your manuscript may be screened for plagiarism against previously published works.

Publication Charges. The publication charge income received for JGR: Atmospheres helps support rapid publication, allows more articles per volume, makes possible the low subscription rates, and supports many of AGU's scientific and outreach activities. Publication charge information can be found here: http://publications.agu.org/author-resource-center/publication-fees/.

To encourage papers to be written in a concise fashion, there is an excess length fee. For JGR: Atmospheres the fee is assessed only on the equivalent of more than 25 publication units. The excess length fee does not apply to review articles, and the editor may waive the fee on a limited number of concisely written papers that merit being longer. There is no charge for color in any format.

Copyright and Photocopying. Copyright © 2019 American Geophysical Union. All rights reserved. No part of this publication may be reproduced, stored or transmitted in any form or by any means without the prior permission in writing from the copyright holder. Authorization to copy items for internal and personal use is granted by the copyright holder for libraries and other users registered with their local Reproduction Rights Organization (RRO), e.g. Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923, USA (www.copyright.com), provided the appropriate fee is paid directly to the RRO. This consent does not extend to other kinds of copying such as copying for general distribution, for advertising or promotional purposes, for republication, for creating new collective works or for resale. Permissions for such reuse can be obtained using the RightsLink “Request Permissions” link on Wiley Online Library. Special requests should be addressed to: permissions@wiley.com.

Disclaimer. The Publisher, American Geophysical Union, and Editors cannot be held responsible for errors or any consequences arising from the use of information contained in this journal; the views and opinions expressed do not necessarily reflect those of the Publisher, American Geophysical Union, and Editors, neither does the publication of advertisements constitute any endorsement by the Publisher, American Geophysical Union, and Editors of the products advertised.

Individual Subscriptions. Member subscriptions are available through members.agu.org or by contacting the AGU Member Service Center. The Service Center is open from 8:00 a.m. to 8:30 p.m. Eastern time: +1 202 462 6900, +1 800 966 2481; Fax: +1 202 777 7393; e-mail: service@agu.org. Questions about meetings or membership will be referred to the appropriate staff.

Publisher. JGR: Atmospheres is published on behalf of the American Geophysical Union by Wiley Periodicals, Inc., 111 River St., Hoboken, NJ, 07030-5774, +1 201 748 6000.

Journal Customer Services. For institutional subscription information, claims and any enquiry concerning your journal subscription please go to https://hub.wiley.com/community/support/onlinelibrary or contact your nearest office.

Americas: Email: cs-journals@wiley.com; Tel: +1 781 388 8598 or +1 800 835 6770 (toll free in the USA & Canada).
Europe, Middle East and Africa: Email: cs-journals@wiley.com; Tel: +44 (0) 1865 778315.
Asia Pacific: Email: cs-journals@wiley.com; Tel: +65 6511 8000.
Japan: For Japanese speaking support, Email: cs-japan@wiley.com.

Production Editor. For assistance with post-acceptance articles and other production issues please contact JGRDprod@wiley.com.

Access to this journal is available free online within institutions in the developing world through the AGORA initiative with the FAO, the HINARI initiative with the WHO, the OARE initiative with UNEP, and the ARDI initiative with WIPO. For information, visit www.aginternetwork.org, www.who.int/hinari/en, www.oaresciences.org, or www.wipo.int/ardi/en.

Cover: In Feng et al. (https://doi.org/10.1029/2019JD031165), image shows the monthly mean of the modeled atmospheric boundary layer CO2 mole fractions for (a) and (b) boundary condition components and (c) and (d) the biogenic flux components. (a) and (c) The monthly means at fifth model level for January 2010 at 20 UTC and (b) and (d) for July. See pp. 14,325–14,346.
Climate and Dynamics

13,604  Kuan-Man Xu, Yongxiang Hu, and Takmeng Wong
Convective Aggregation and Indices Examined from CERES Cloud Object Data (https://doi.org/10.1029/2019JD030816)
